Enhancing Farmer's Skills and Knowledge

Farm Dam Maintenance and Management - improving your water storage

Date: Friday 11th March, 9:30am to 2:00pm - Location Earlston Fire Shed on Feltrim road. (Look out for Landcare signs)

Gecko Clan, in conjunction with Agricultural Victoria (Department of Economic Development), is running a short information session for farmers on farm dams & water.

Recent dry years have highlighted the importance of farm dams and the importance of stored water.

This field day will discuss maintenance, management issues and common problems.

- ***Maintenance and repair***
- ***Spillway/overflow and trickle pipe issues***
- ***Wall leakage and deterioration***
- ***Vegetation management***
- ***Safety issues***
- ***Livestock management***
- ***Catchment management and cleaning out / de-silting.***

This is a free event with lunch provided – Please RSVP by the 8th March to Kerri Robson on:
