

Resilient Sustainable Agriculture

Enhancing Farmers' Skills and Knowledge

Soils, Moisture, Plants and Technology Field Day 2

Friday, October 27 at 9.30 am

at the trial sites and then back to Swanpool Hall for presentation and lunch
(Please wear suitable clothing for paddock walk)

Blackwood Park 1000 Lima East road, Lima East
(Look out for Landcare signs from the Midland Highway)

Inspect the trial plots following 5 months of growth

<u>Trial Plot Control</u>	<u>Trial Plot 1</u>	<u>Trial Plot 2</u>	<u>Trial Plot 3</u>
Existing pasture No Keyline ripping	Tillage Radish and Oats No Keyline ripping	Tillage Radish and Oats Keyline ripping	Existing pasture Keyline ripping

- See the benefits of Keyline ripping and deep rooted tillage crops
- Soil moisture probes, weather station and pasture growth rates will be demonstrated.
- The trial shows how different treatments to soil affect soil moisture availability and plant growth.

This is a free event with lunch provided — please RSVP by 25/10/2017 to Kerri Robson on:
