

WHAT TO DO WITH FARM WASTE?

An event hosted by Gecko Clan Landcare Network

**Waste - we all create it, but what can we do with it?
Come along for lunch in Euroa on Thursday 28th September to
join the conversation.**

Find out what waste services are being provided in the area, and what innovations are on the horizon for landholders.

Featuring:

Whole Farm Waste Minimisation - a presentation from David Arnold (Murrnong Farm) - check out the blue box below for all the details.

Strathbogie Shire Council - Waste Management Officer Shaun Langlands will advise on Council's current services.

About David Arnold (Murrnong Farm)

David Arnold takes a holistic view of farming systems, aiming for better capture and storage of energy and resources, better margins, with reduced leaks in the system.

He advocates a regenerative approach that maximises use of sunlight, soil, water and plant diversity, while minimising financial and energy expense on external inputs.

As agro-ecological land managers we should aim to produce no waste.

David will illustrate these principles with solutions from his own and other farmers' experience, within this region.

**Thursday 28th September
1pm to 3pm
Euroa Football Club Rooms
(2 Dunn St, Euroa VIC)**

A free event, lunch provided

**Please RSVP by 26th September:
