

SEASONAL OUTLOOK AND LOCAL SOIL MOISTURE CONDITIONS

You're invited to this free event hosted by the Gecko Clan Landcare Network.

Understand the seasonal outlook, local soil moisture conditions, and hear about what effect a summer El Nino will have on your farm. Agriculture Victoria experts Dale Boyd and Dale Grey will present on the current and forecast conditions for our region.

The morning's session will be followed by a light lunch.

Date: Thursday 30th November 2023

Time: Doors open at 9.30am for a 10am start, concluding at midday

Where: Benalla Lakeside Community Centre (off Arundel Street)

Cost: Free

Please RSVP by Monday 27th November for catering purposes.

Book online via the QR code, or visit:

For phone bookings and enquiries text or call Landcare Facilitator
Claire Birch: 0448 908 690

This program/project received funding from the Australian Government's Future Drought Fund.

ABOUT THE GUEST PRESENTERS:

DALE BOYD

Dale Boyd has worked with Agriculture Victoria for 24 years in areas of irrigated cropping, seasonal risk and monitoring soil moisture. Dale supports technology adoption including soil moisture probes in grazing and cropping systems.

DALE GREY

Dale Grey has worked with Agriculture Victoria for 29 years in crop and pasture agronomy, climate and weather. He is well known for his Fast Break newsletters and Very Fast Break climate updates on YouTube in which he delivers easy to understand seasonal interpretations of climate models.
