

IMPROVING PASTURES, SOIL HEALTH AND PRODUCTIVITY

Learn how to use your soil test results to make better farm decisions at our field day and soil pit demonstration.

- Find out why we soil test and when to soil test
- Learn how to read your pastures when taking core samples to know where to test
- How to set up fertiliser strips to help identify constraints to pasture growth
- Soil pit and soil interpretation - what grows below 10 cm?
- Bring your soil test results for a one-on-one chat with a consultant

Date: 11th April, 2024
