

FUNGI FORAY AND ECOLOGY WORKSHOP

Come along on a guided fungi foray on our regenerative farm in North East Victoria. This half-day workshop will involve a walk and talk on fungi ecology and identification. We may also encounter and forage common Autumn edible species. Learn alongside us as we explore the role of fungi in the ecology of the farm and broader landscape. The workshop will be led by Jessarne Palmer, an environmental science graduate and keen fungi enthusiast.

Date	Sunday May 19 th 10 am to 1 pm approx
Place	Warrenbayne
Price	\$20
Tickets	Book tickets here: https://events.humanitix.com/fungi-foray-and-ecology-workshop
